They were the first theater in the area to open after stage 2 restrictions were lifted. We enjoyed throw-back movies for \$5. Vip seating was great. Reclining, spacious, un worn, coffee table attached individually dissected chairs were great. The popcorn was slightly on the oily side (even after asking for light), but tasty and the staff were great. The time we'll get a burger. The normal price is a bit too much, but understandable given the over-head. A madness compared to the big movie chains, but a special evening is emphasized. Try it and I'm once the price tag has been exceeded; you will be sold on the experience. ... The seats recline slightly and have footrests. Our group ranges in height from 5'4 to 6'4 and everyone thought the places were great. Soft and comfortable but not extroverted and the headrest, in my mind, was the best! Of course the film was excellent; my second time seeing it.... Buy dinner and drinks in the lobby and eat while watching a movie. Watch movies labeled as VIP, to enjoy comfortable reclining chairs. The film was great and the theater is also very good. We got the special seating theater which costs a bit more but is worth it. The seats were comfortable and no one sitting in front of us so the eye line is great. Date of experience:

We try to go on Tuesdays when prices are cheaper, but they will generally go at any time. Theaters are clean but during movies there are no ushers, so even people who talk on mobile phones or are simply rude are not frequented. Alcohol is served in the lobby bar which can contribute to some of the theater's problems. ...
